

Ionic Silver Water

TOXIN FREE Dietary Supplement

Silver in water inactivates certain enzymes needed by anaerobic bacteria, viruses, yeasts, and fungi. Without these enzymes, the anaerobic bacteria, viruses, yeasts, and fungi cannot survive.

Ionic Silver is defined as a concentration of silver ions suspended in highly purified water where most of the solution is comprised of positively charged silver atoms.

Uses for Ionic Silver Water

- Disinfect drinking water by adding to home and office filters
- Fight airborne pollutants by adding to air purifiers or diffusers
- Add to your drinking water daily as a toxin-free way to help promote pH balance
